

Letter of recommendation

for Gustav Šourek

I write to support Gustav Šourek in applying for the UPE 2016 scholarship award. Gustav is currently the vice-president of our local chapter and I can confirm that he is actively involved in all the affiliated activities of UPE. Moreover, he was already proactive as a member, while helping with organization of excursion for other UPE members and also took part in preparation of different networking events. He often takes the initiative to help out with tasks on hand, both from the side of UPE and the local department of Computer Science, where he also operates as a teaching assistant, helping other students and promoting general interest in computer science.

For the Czech Alpha chapter of UPE, I can thus sincerely recommend Gustav for the scholarship award, and I will be happy to respond to any further inquiries about his application should they arise.

Best wishes,

Tomáš Černý, Ph.D.
